To Whom It May Concern:

I am seeking a tenure-track position as an assistant professor in your department. I am a Ph.D. candidate in the Computer Science Department at Princeton University, and I expect to graduate this year. My research interests are at the intersection of algorithmic game theory and information security. In particular, how strategic behavior impacts computer system's security and fairness.

I have enclosed my curriculum vitae with a list of references, a research statement, a teaching statement, a diversity statement, and two representative papers. The most up-to-date version of these materials is available online at <http://matheusvxf.github.io/application/faculty/>.

I look forward to discussing my application with you.

Sincerely,

Matheus Venturyne Xavier Ferreira
